**Our business is sowing and cultivating financial seeds for a financial harvest - but our vision is to sow peace and goodwill to all people on earth to reap more than a financial harvest.**

This looks like helping a team member to rescuing a trafficked child across the globe to inspiring other investors and owners to do the same.

# our story

## NOTE FROM THE OWNER

As a teenager I remember visiting my mom at the factory where she sewed sleeves onto t-shirts at breakneck speed for 50 hours a week, and being shocked at the oppressive heat and lent clouding the air in the ear-piercingly loud, dank, windowless room.

The purpose of Eden Companies was never to make one person rich.

My dream is to see the whole earth return to the perfection that was the Garden of Eden, and clear oppression from the air around the world.

We can bring heaven to earth through our values of love, service, and generosity. I'm excited for you to join me in making money to make a difference and value other's interests above our own.

# our values

LOVE | SERVICE | GENEROSITY

*to our company, clients, + community*

Eden Companies stands on 3 values , like a 3-legged table in every company/seed-sowing venture. Much like a table with 3 legs cannot stand without one leg, Eden Companies relies on all 3 values in all we do.

# our values
